MEMORANDUM

TO: Recipients of *Crime in North Carolina* - 1996

FROM: Statistician Julia Nipper JN

SUBJECT: Errata to *Crime in North Carolina* - 1996

The 1996 edition of *Crime in North Carolina* that you recently received contains errors in the Table of Contents. This affects pages viii and ix. A corrected version of the Table of Contents is attached.

I apologize for any inconvenience this error may have caused you. If you have any questions, please contact me at (919) 733-3171 ext. 213.

**(919) 733-3171**
**http://www.jus.state.nc.us/Justice/**

**Issued June, 1997**

**Please Note**

Figures used in this report are submitted voluntarily by law enforcement agencies throughout North Carolina. Individuals using these tabulations are cautioned against drawing conclusions by making direct comparisons between cities due to the existence of numerous factors which affect the amount and type of crime from place to place. Some of these factors are listed in this report. More valid use can be made of these figures by determining deviations from state averages and through comparisons with averages for cities in similar population groups. It is important to remember that crime is a social problem and, therefore, a concern of the entire community. The efforts of law enforcement are limited to factors within its control.

North Carolina Department of Justice
State Bureau of Investigation

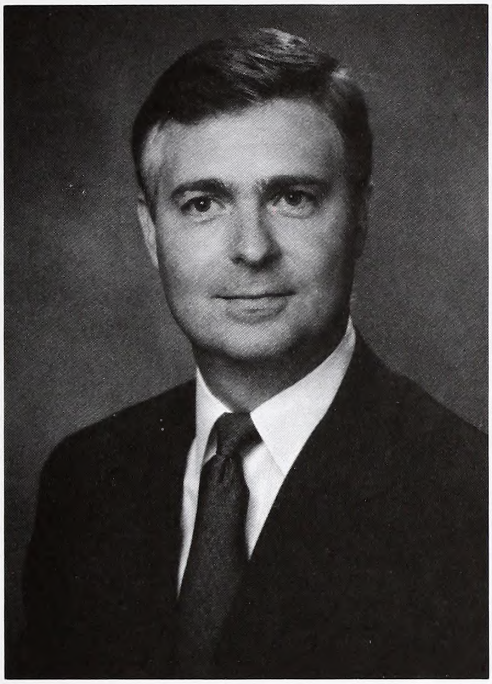
Raleigh, North Carolina 27601

A total of 1,250 copies of this public document were printed by the North Carolina Department of Justice, State Bureau of Investigation, at a cost of $16,800.00 or $13.44 per copy.

This publication is printed on permanent, acid-free paper in compliance with the General Statutes of the State of North Carolina.

# Preface



I am pleased to provide you with the twenty-fourth edition of *Crime in North Carolina*. This document is based upon monthly offense and arrest reports complied by more than 450 law enforcement agencies across the state. On behalf of all North Carolinians, I thank each of these agencies for their annual assistance with this document and for their daily work in the fight against crime.

Reported violent crime in North Carolina decreased 5 percent from 1995 to 1996. During the same period, the decline in the rate of violent crime (as measured per 100,000 citizens) was even greater. The violent crime rate fell 7%, dropping to its lowest level since 1989. Individually, the murder rate dropped 10%, the rape rate decreased 3%, the robbery rate fell 9% and the rate of aggravated assault went down 7%. The rate of property crime (burglary, larceny and motor vehicle theft) decreased 2% across the state.

These numbers are important because they offer reliable facts on the paramount issue of personal safety. The facts show that North Carolina is safer now than it was this time last year. However, the crime rate is still much too high and we must continue to make changes in our criminal justice system to ensure the safety of law-abiding citizens.

In particular, we need a better approach to juvenile crime. While the 20% drop in juvenile (under age 18) arrests for murder in 1996 is a positive sign, the number of juveniles under age 18 arrested for both violent and property crimes increased 5%. To significantly reduce juvenile crime, I continue to stress the need to better education and smaller class sizes in addition to stiff punishments for violent offenders.

Ultimately, we need every citizen involved in the fight against crime. Together, we must find innovative ways to meet the challenge of keeping our schools, streets and neighborhoods safe.

Michael F. Easley
Attorney General

# Law Enforcement Code of Ethics

**As a Law Enforcement Officer**, *my fundamental duty is to serve mankind; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all men to liberty, equality and justice.*

**I will** *keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept secret unless revelation is necessary in the performance of my duty.*

**I will** *never act officiously or permit personal feelings, prejudices, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.*

**I recognize** *the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the police service. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession . . . law enforcement.*

# Foreword

In 1969 the Division of Criminal Information (DCI), then called the Police Information Network, was created to provide criminal justice information to all North Carolina law enforcement and criminal justice agencies. Since 1973, law enforcement agencies throughout North Carolina have voluntarily submitted data to the DCI on specific crimes committed in their areas of jurisdiction.

The information and statistics presented in this annual are an assessment of those reports submitted for 1996 and represent an overview of the statewide problems associated with those crimes. Once this data is compiled from monthly reports submitted to the DCI, it is furnished to the Federal Bureau of Investigation for tabulation in their national publication called *Crime in the United States*.

This publication is printed with the hope that it will not only assist law enforcement administrators in determining their priorities in the fight against crime, but that it will prove to be a vital resource to researchers, educators and other public and private agencies involved with criminal justice in North Carolina. We believe that the collection of crime statistics will increase awareness for all citizens and by studying these statistics there will be a greater understanding of the problems facing law enforcement. Hopefully this will result in constructive improvement of our criminal justice system.

James J. Coman
SBI Director

## Division of Criminal Information
Statement of Policy
For Release of Crime Reporting Data

The following policy will be observed by the State Bureau of Investigation concerning the release of all crime data collected under the summary Uniform Crime Reporting and Incident Base Reporting standards. Employees of the SBI shall not deviate from this policy without the express consent of the SBI Assistant Director for DCI or the SBI Director.

**Public Access:**

1. Any crime data submitted to the Division of Criminal Information will be made available for public release once that data has been edified, verified for accuracy and put in final form.

2. The SBI/DCI has the authority to charge for the release of crime data to non-criminal justice contributors to recover the costs in providing the information.

3. All crime data to be released will originate from the SBI's Division of Criminal Information due to periodic updating.

**Official Publications:**

1. The SBI/DCI will publish an annual report reflecting crime in North Carolina. This report will be distributed to the Governor, to members of the Legislature, to the Attorney General, to law enforcement agencies or to any agency or committee dedicated to law enforcement or criminal justice work. The SBI/DCI and its Advisory Policy Board have the authority to place a charge on the annual publication, *Crime in North Carolina*, to recover the cost of publishing the document.

2. Law enforcement agencies are asked to comply with the release dates and times of official publications such as *Crime in North Carolina*, the *Semi-Annual Report*, and the Initial Annual Report entitled *Crime in North Carolina*.

**Law Enforcement Access:**

Criminal justice agencies will have their own data and other contributor's data available to them at all times for the purposes of crime prevention, crime pattern detection or other related needs in combating crime.

# Dedication

This publication is dedicated to all law enforcement officers, and in particular to those who have lost their lives while upholding the laws and serving the citizens of North Carolina.

The following officers were killed feloniously in the line of duty:

**Officer Damon Franklin Smith**
Oakboro Police Department
April 15, 1996

**Officer Gregory Keith Martin**
Jonesville Police Department
October 5, 1996

The following officer was killed accidentally in the line of duty:

**Trooper Damion Cortez Roberts**
State Highway Patrol
August 7, 1996

# SECTION I

# North Carolina Uniform Crime Reporting Program

## Historical Background

The North Carolina Uniform Crime Reporting Program is part of a voluntary national program of collecting crime counts initiated in 1930 by the Committee on Uniform Crime Records of the International Association of Chiefs of Police (IACP). That same year, the Federal Bureau of Investigation (FBI) was authorized by the Congress of the United States to serve as the national clearinghouse for statistical information on crime. Since that time, data based on uniform classifications and procedures of reporting have been obtained by the FBI from the Nation's law enforcement agencies.

In an effort to provide as complete a picture of crime as possible on a national level, the Committee on Uniform Crime Records of the IACP chose to obtain data on offenses that became known to law enforcement, since greater numbers of these data were available than in any other category of reportable crime information. Realizing that not all crimes are reported, the Committee evaluated various offenses on the basis of their seriousness, frequency of occurrence, pervasiveness in all geographical areas of the country, and likelihood of being reported to law enforcement. Using those criteria, seven offenses were chosen to serve as an Index for gauging fluctuations in the overall volume and rate of crime. Known collectively as the Crime Index, these offenses include the violent crimes of murder and non-negligent manslaughter, forcible rape, robbery, aggravated assault and the property crimes of burglary, larceny, and motor vehicle theft. By congressional mandate, arson was added as the eighth Index offense in 1979.

During the early planning of the Program, it was recognized that the differences among criminal codes precluded a mere aggregation of state statistics to arrive at a national total. Further, because of the variance in punishment for the same offenses in different state codes, no distinction between felony and misdemeanor crimes was possible. To avoid these problems and provide nationwide uniformity in crime reporting, standardized offense definitions by which law enforcement agencies were to submit data, without regard for local statues, were formulated. Reporting agencies are required to submit their data in accordance with the Uniform Crime Reporting definition of offenses as set forth in Section 2 of this publication.

Contributing agencies of the UCR Program are responsible for compiling and submitting their crime data in one of two means, either directly to the FBI or through state level UCR Programs such as the one established in North Carolina. State UCR Programs provide the advantages of increased coverage of law enforcement agencies; the provision of more direct and frequent service to law enforcement agencies in assuring completeness and quality of information provided by them; and through coordination by the state data collection agency, more readily available information for use at the state level. With the development of a state UCR Program, the FBI ceases collection of data directly from individual law enforcement agencies within the state. Instead, completed information from these agencies is forwarded to the national Program through the state data collection agency (Division of Criminal Information in North Carolina).

Providing vital links between local law enforcement and the FBI in the conduct of the UCR Program are the Criminal Justice Information Systems Committees of the IACP and the National Sheriffs' Association (NSA). The IACP, as it has since the Program began, represents the thousands of police departments nationwide. The NSA encourages sheriffs throughout the country to participate fully in the Program. Both committees serve in advisory capacities concerning the UCR Program's operation.[1]

## The Division of Criminal Information

The growing need for a central computerized network of criminal justice information for the state of North Carolina prompted an extensive survey by the Governor's Law and Order Committee in 1968. Following this committee's report, the General Assembly enacted legislation in 1969 creating the Police Information Network under the Department of Justice.

---

*Crime in the United States* - 1995, United States Department of Justice, Federal Bureau of Investigation, p. 1.

The Police Information Network (PIN) was given the authority under N.C.G.S. 114-10 to collect and correlate information regarding the administration of criminal laws; to maintain and control the access to such information that is required for the performance of criminal justice duties; and to make analysis and comparisons of this data in cooperation with local, state and national criminal justice agencies.

In 1985, the Police Information Network was made part of the State Bureau of Investigation (SBI) by order of the Attorney General and merged with the SBI's Identification Section creating the Division of Criminal Information (DCI). It was felt that the Division of Criminal Information was an appropriate name since a major function of DCI would be to collect, store and disseminate criminal history and criminal statistical information.

In addition to maintaining criminal history record information and criminal statistical information, DCI also serves as a statewide telecommunications center. This central computer network operates twenty-four hours a day, seven days a week, linking local, state and national criminal justice agencies with up to the minute information on crimes and criminals.

Users of the network not only have the ability to transmit or receive, within seconds, any law enforcement related message, but they also have access through the DCI to other law enforcement computers located throughout the state and nation. These computers include: the National Crime Information Center (NCIC), the National Law Enforcement Telecommunications System (NLETS), the Administrative Office of the Courts (AOC), and the State Information Processing System (SIPS) for access to the North Carolina Division of Motor Vehicles (DMV). The high-speed communication links between these computer networks ensure the fast and accurate transmission of the latest data on criminal activity.

The National Crime Information Center (NCIC), maintained by the Federal Bureau of Investigation (FBI) in Washington, D.C., is a nationwide computerized information system that serves all criminal justice agencies--local, state, and federal. NCIC contains information used to identify and locate wanted/missing persons and stolen/recovered property as entered by law enforcement agencies across the nation. NCIC also provides the access method to the national criminal history record information index known as the Interstate Identification Index (III).

The National Law Enforcement Telecommunications System (NLETS), located in Phoenix, Arizona, is a communications system which allows for the exchange of messages from one state to another and to Canada. States may access and exchange information pertaining to driver's license, vehicle registration, boat registration, aircraft registration and tracking, criminal history records, sex offender registration and other law enforcement related messages.

The DCI and the Administrative Office of the Courts (AOC) have implemented a computer to computer interface which provides all DCI users with the capability to access statewide Clerk of Court criminal records. Access to the AOC criminal records provides law enforcement agencies with immediate information pertaining to pending, disposed and unserved criminal warrants maintained by each county Clerk of Court.

The North Carolina Division of Motor Vehicles (DMV), a division of the Department of Transportation, provides access to North Carolina driver's license information, driver's history information and vehicle registration information. In cooperation with the Wildlife Resources Commission of the Department of Environment, Health, and Natural Resources, DCI also provides access to the state boat registration files.

DCI is comprised of six sections: Administration, Crime Reporting and Field Services, Identification, Data Processing, Computer Operations, and Telecommunications.

**The Administration Section**, supervised by Judy Breeden, is the smallest section in DCI, but its functions are extremely critical to the orderly and efficient operation of the Division and to some degree, to the Bureau as a whole. Administrative Services is responsible for the accounting and financial functions of the Division, which includes billing for user access and data processing services; the requisition of equipment and supplies; and inventory control of computer hardware and software. It also oversees the documentation of the Division's administrative procedures. Other areas of responsibility include the installation of new terminals and computer interfaces and the distribution of mail.

**The Crime Reporting and Field Services Section**, supervised by Doug Kappler, is composed of three distinct but interrelated units: Crime Reporting, Field Services, and Quality Assurance.

The Crime Reporting Unit is responsible for administering the crime reporting standard for North Carolina. This unit has the critical task of receiving, reviewing, and affecting entry into the data base of all crime data submitted. This process involves assurance that submitted data is in compliance with reporting standards and is accurate and complete.

The Field Services Unit provides specialized training programs to criminal justice agencies throughout the state. Training specialists travel the state to certify DCI terminal operators on the use of the network, to conduct fingerprint training, and to assist local law enforcement agencies in compiling criminal statistics.

The Quality Assurance Unit performs field audits of law enforcement and criminal justice agencies to determine compliance with DCI and NCIC requirements regarding the use of the system as well as the dissemination of computerized criminal history. Part of the audit process is to insure that the information entered in to the DCI and NCIC networks is accurate and current.

**The Identification Section**, supervised by Stan Lewis, is responsible for collecting, classifying, searching, and storing criminal history record information, based upon positive fingerprint identification received from North Carolina criminal justice agencies. Once the arrest, court and custody information is verified by fingerprints, it is entered into DCI's computerized criminal history file (CCH), where it is accessible to all criminal justice and non-criminal justice agencies as authorized nationwide.

The Identification Section also automates criminal fingerprint card submissions into the Automated Fingerprint Identification System (AFIS). The AFIS is electronically linked to other law enforcement agencies throughout the North Carolina, allowing for the submission of criminal fingerprints from the point of fingerprinting and the subsequent search and immediate identification of those fingerprints. This electronic link also allows for the immediate search and identification of latent fingerprints from crime scenes.

**The Data Processing Section**, supervised by George Bakolia, is responsible for the design, development, maintenance and implementation of the division's sophisticated computer software applications. The operating environment consists of a large mainframe computer, acting as the enterprise server, surrounded by a distributed network of terminals, local area networks, distributed servers, and local computer systems. This environment allows for message switching between terminal users as well as direct access to NCIC and NLETS.

This section also provides projections and recommendations concerning future software and hardware needs. The Data Processing Section is constantly engaged in the research and development of new computer programs as well as in the enhancement of existing programs to ensure better capabilities for all users.

**The Computer Operations Section**, supervised by Aaron Burris, is responsible for maintaining and monitoring "around the clock" operation of the large scale computer system. This system and all associated hardware are central to the data processing and telecommunications services provided by DCI. Other services provided by operations to the terminal user community include NCIC control terminal duties, NLETS control terminal duties and the handling of DMV driver's license record issues. Computer Operations at times acts as an SBI liaison after hours by contacting SBI personnel, initiating computerized record searches for SBI agents, and monitoring computer terminal traffic for other Bureau sections.

**The Telecommunications Section**, supervised by Carroll Willis, is responsible for all telecommunications connectivity within the network. This includes the design of the wide area router based TCP/IP network, fax, voice, and the implementation of new technologies that enhance communications connectivity within the agency. The section troubleshoots and coordinates with the appropriate entity for problem resolution for approximately 2,000 network users. The section is involved with the design, implementation and conversion of the proprietary legacy terminal network to a more open systems wide area network to support applications such as image, fingerprint and video transmissions with high speed connections.

Agencies which utilize the DCI system include Sheriff's Offices, Police Departments, the State Highway Patrol, the State Bureau of Investigation, the Department of Corrections, District Attorney's Offices, the Wildlife Enforcement Division, the Federal Bureau of Investigation, Drug Enforcement Administration, the U.S. Customs Agency, the U.S. Secret Service, the Division of Motor Vehicles, universities and other state and federal agencies.

The advisory body for DCI is the **Advisory Policy Board**. The board consists of not less than 13 members selected by the SBI Assistant Director for DCI for recommendation to the Director of the SBI with approval by the North Carolina Attorney General. Members shall serve for a term of three years.

Membership shall consist of four police chiefs, four sheriffs, one representative each from the State Highway Patrol, Administrative Office of the Courts, Department of Correction, Division of Motor Vehicles (Enforcement), and the SBI Assistant Director for DCI.

The board meets as determined by the SBI Assistant Director for DCI. The purpose of the board is to advise and make recommendations to the SBI Assistant Director for DCI regarding philosophy, rule making, organization, and operation of DCI.

## Reporting Procedures

In the statewide Uniform Crime Reporting Program contributing law enforcement agencies are responsible for compiling their own crime reports and submitting them to the Division of Criminal Information (DCI). In an effort to maintain quality and uniformity in the data received, DCI Training Specialists provide training in crime reporting procedures. All contributors also are also provided crime reporting guidelines which outline procedures for scoring, classifying and reporting criminal offenses and arrests.

A centralized record system is necessary to the sound operation of any law enforcement agency and is essential for crime reporting. Upon request DCI provides internal records forms and technical assistance available at no cost to any law enforcement agency. This provides for the establishment or modification of a basic records keeping system.

All crime reporting agencies report the number of offenses and associated crime data in the following crime categories: murder and nonnegligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny, motor vehicle theft, and arson. This data, known as Part I Offenses, is taken from a record of all complaints of crime received by the law enforcement agency from victims, officers who discover infractions, or other sources.

Whenever complaints of crime are determined through an investigation to be unfounded or false, they are eliminated from an agency's count. The number of "actual offenses known" is reported to DCI regardless of whether anyone is arrested for the crime, stolen property is recovered, or prosecution is undertaken.

Another integral part of an agency's data is the total number of actual Part I offenses cleared. Crimes are "cleared" in one of two ways: (1) at least one person is arrested, charged, and turned over to the court for prosecution; or (2) by exceptional means when some element beyond law enforcement control precludes the arrest of an offender. Law enforcement agencies also report the number of Part I offenses clearances which involve only offenders under the age of 18; the value of property stolen and recovered in connection with the offenses; and detailed information pertaining to criminal homicide, rape and arson.

In addition to its primary collection of Part I offenses, the UCR Program solicits data on persons arrested for all crimes except traffic violations. The age, race and sex of arrestees are reported by crime category for both Part I and Part II offenses. Part II offenses include all crimes not classified as Part I crimes. Various data on law enforcement officers killed or assaulted are also collected. The number of full-time and part-part sworn and civilian personnel are reported as of October 31, of each year.

## Verification Procedures

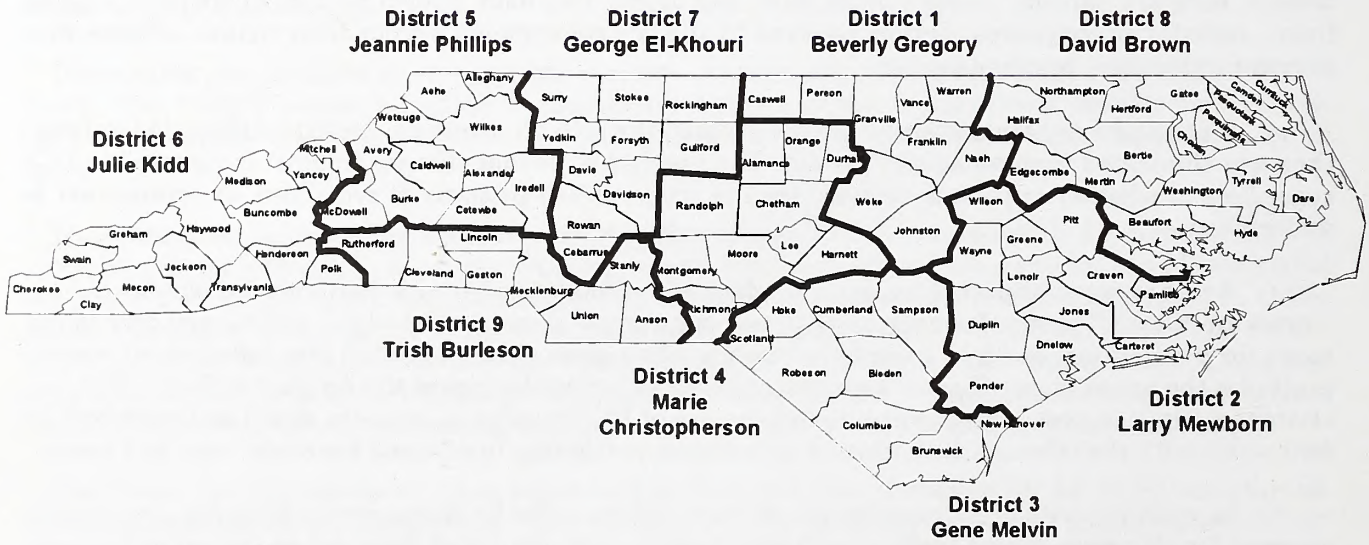
An obvious concern in the collection of crime statistics is the validity and uniformity of the data received. With the voluntary submission of crime reports from over 450 jurisdictions, the problem of attaining uniformity is readily apparent. Crime data submitted to DCI is reviewed for compliance with reporting standards to ensure accuracy and completeness. Data reliability is a high priority and noted deviations or arithmetical adjustments are brought to the attention of the submitting agency by direct contact through a DCI Training Specialist. A great deal of the success of North Carolina's UCR Program has largely been due to the Training Specialist staff assigned to assist local agencies in record keeping practices and crime reporting procedures. Personal contact is invaluable to the accuracy and uniformity of UCR data received.

DCI has also developed an audit program to assess and document the accuracy and integrity of the crime data reported to the UCR program. Although DCI makes every effort through audits, editing procedures, training practices and correspondence to assure the validity of the data it receives, the statistics' accuracy depends primarily on the adherence of each contributor to the established standards of reporting.

## Field Representation

For Uniform Crime Reporting purposes, DCI divides the state into nine districts. A DCI Training Specialist is assigned to each district to assist local agencies in many areas including record keeping practices and crime reporting procedures. The difficult and important task of maintaining close liaison is obvious when it is realized that services are provided to over 450 law enforcement agencies. Education of contributors to the program must be a constant operational requirement, if continued system adherence and valid statistics are to be expected.

## Crime Reporting Districts



## Incident-Based Reporting

The Division of Criminal Information (DCI) has developed an Incident-Based Reporting Program similar to the one developed by the Federal Bureau of Investigation. Incident-Based Reporting is a less restrictive and more expansive method of collecting crime data as opposed to the current Uniform Crime Reporting (UCR) Summary Program from which the statistics in this publication have been drawn.

With Incident-Based Reporting, DCI has overcome most of the limitations on crime analysis imposed by the UCR Summary Program simply by changing the method by which crime data is collected and compiled in this state. Conversion to Incident-Based Reporting has eliminated the monthly completion of time-consuming and often error-filled summary reports by the contributing agencies. Instead, agencies submit to DCI either a copy of their crime reports or they submit automated reports on a disk, tape, bulletin board, etc. From these reports the DCI extracts the data needed to classify and score all offenses, clearances, arrests and related data.

The advantages of such a reporting system are obvious: 1) less paperwork imposed upon participating agencies, 2) better overall uniformity and validity of crime data, and 3) a vastly enhanced crime data base for analysis purposes.

To fully appreciate the advantages of an enhanced data base, consider that statewide data for the following offenses is not available through the UCR Summary Program: 1) kidnaping; 2) white collar crime in its various forms; 3) the writing of worthless checks and other types of fraud; 4) spouse abuse; 5) child molestation, abuse and neglect; 6) non-support, and desertion or abandonment; 7) blackmail and extortion; 8) escape from custody and resisting arrest; 9) parole and probation violations; and 10) court related offenses such as perjury and failure to appear.

In addition to the above information, Incident-Based Reporting will provide the first valid analysis of the extent of juvenile crime and the criminal misuse of handguns in North Carolina, which would be invaluable in determining appropriate legislation for dealing with these problems. This program may provide limited examination of the modus operandi (M.O.) of crimes which could be studied and compared on a statewide basis.

Since Incident-Based Reporting began in 1980, DCI has converted over 430 agencies of the 460 reporting agencies to Incident-Based Reporting. With increased automation of law enforcement records, DCI hopes statewide Incident-Based Reporting will become a reality in the near future. Section 9 contains Incident-Based offenses for those agencies that have submitted twelve months of data for 1996. In addition, 1995 data will be included if the agency submitted twelve months of data for that year.

## Hate Crime Reporting

In response to a growing concern about hate crimes, the President of the U.S. signed into law on April 23, 1990, the Hate Crime Statistics Act of 1990. The Act required the U.S. Attorney General to establish guidelines and collect, as part of the UCR Program, data "about crimes that manifest evidence of prejudice based on race, religion, sexual orientation, or ethnicity, including where appropriate the crimes of murder, forcible rape, aggravated assault, simple assault, intimidation, arson and destruction or vandalism of property."

The enactment of Federal legislation requiring the collection and publication of nationwide hate crime statistics prompted the N.C. General Assembly to pass hate crime legislation. This legislation allows for stiffer penalties for crimes committed solely on the basis of hate and provided funding for the N.C. Justice Academy to train law enforcement agencies in hate crime reporting. The N.C. Justice Academy began training law enforcement agencies during the fall of 1992 and this training continues statewide.

DCI provides assistance to agencies in hate crime reporting, such as providing forms, reporting assistance and statistical analysis. In order for DCI to accept a hate crime report, the reporting agency must have officers trained. DCI has modified its crime reporting forms to allow for the collection of hate crime.

From 1992 through 1994, DCI received a limited number of hate crime reports. In 1995, fifty-nine agencies participated in the Hate Crime Program and in 1996 the participation increased to eighty-three. Even though participation is limited and the numbers are insufficient to generate meaningful trend analysis, DCI has made this information available in Section IV entitled Hate Crime Reporting.

## Contributing Agencies and Population Coverage[1]

There are currently an average of 468 law enforcement agencies throughout the State contributing directly to the North Carolina Uniform Crime Reporting Program. The table below sets forth the number of agencies by type that have participated in the Crime Reporting Program through December, 1996. The State Highway Patrol and the Wildlife Commission are each counted as one agency even though a monthly report is received reflecting activity in each county. Uniform Crime reports received from these agencies represent statistical data covering approximately 98.3 percent of the estimated North Carolina population.

### January 1, 1996 - December 31, 1996

| Month | Total | Police | Sheriff | State Parks | Campus Police | SHP | Wildlife | Percent of Pop. Cov. |
|---|---|---|---|---|---|---|---|---|
| January | 471 | 327 | 95 | 28 | 19 | 1 | 1 | 98.62 |
| February | 470 | 325 | 95 | 28 | 20 | 1 | 1 | 98.63 |
| March | 466 | 324 | 94 | 28 | 19 | 1 | 1 | 98.27 |
| April | 467 | 325 | 94 | 28 | 19 | 1 | 1 | 98.29 |
| May | 468 | 326 | 94 | 28 | 19 | 1 | 1 | 98.29 |
| June | 469 | 327 | 94 | 28 | 19 | 1 | 1 | 98.29 |
| July | 468 | 326 | 94 | 28 | 19 | 1 | 1 | 98.33 |
| August | 468 | 327 | 94 | 28 | 18 | 1 | 1 | 98.22 |
| September | 470 | 329 | 94 | 28 | 18 | 1 | 1 | 98.32 |
| October | 469 | 326 | 94 | 28 | 19 | 1 | 1 | 98.24 |
| November | 468 | 326 | 94 | 28 | 19 | 1 | 1 | 98.24 |
| December | 468 | 326 | 94 | 28 | 19 | 1 | 1 | 98.31 |
| Average | 468 | 318 | 94 | 28 | 18 | 1 | 1 | 98.33 |

[1]For a list of incomplete reporting and non-participating agencies, see pages 221-222.

# SECTION II

# Considerations For Interpretation

# UCR Limitations

**N. C. UCR Program** — Information currently collected by the North Carolina Program is generally the same as that gathered by the National system, and the methods of classifying and scoring (counting) offenses and arrests are the same. This readily enables comparisons with other states and the Nation (see "Crime in the United States" in Section VII), but the information gaps present in the National program are also inherent in the North Carolina's system.

**Primary Purpose** — The Uniform Crime Reporting Program has been subject to much criticism during its history, and while many of these commentaries have been valid, at least some of the shortcomings are understandable when it is remembered that the program has been developed to furnish management information for use primarily by law enforcement agencies.

The Uniform Crime Reports are not a court or corrections statistical program. They are not designed to furnish an overview of the workings of our entire criminal justice system, nor are they able to give the complete picture of law enforcement activity. The main goal of the UCR Program is to furnish police administrators with a measure of their activities and operational problems as indicated by the number of reported offenses, arrests, clearances, and the like.

Therefore, much of the criticism of the UCR Program itself is weakened when its stated purpose is kept in mind. Uniform Crime Reports data are the best crime information currently available since they reflect the key events (criminal offenses) that set in motion the various phases of our criminal justice process. The number of arrests, prosecutions, or convictions, while capable of more precise measurement, nevertheless is less indicative of the amount and nature of crime because such data is further removed from the original event. But, because the Uniform Crime Reporting Program is the only recurring crime and arrest reporting program operating on a national level, of necessity it serves as the base for assessing the many significant information gaps at the input end of the criminal justice system.

**Type Data Collected** — A first step in the control of crime is to ascertain the true dimensions of the problem. However, present statistics as gathered by the UCR Program measure neither the real incidence of crime nor the full amount of economic loss of victims. Information regarding the number of property stolen and covered data is requested only for property stolen in Part 1 offense categories. There is no calculation made for property damaged except in the arson offense classification.

For the Part 2 offenses (except simple assault), the only information submitted is the number of arrests for these crimes according to the age, sex, race, and ethnicity of the subject. Consequently, there is no record of the actual number of these offenses occurring.

Moreover, the broad categorization of this data does not allow an examination of the number of offenses reported nor the arrests made for such offenses as spouse abuse, the writing of worthless checks, and kidnapping. The number of these particular offenses or arrests, as well as others, are included in such general categories as Assault, Fraud, and All Other Offenses.

Although some victimization data is collected in the offense categories of Homicide and Rape, there is no record of the victims of Robbery, Assault, Burglary, and the remainder of the UCR Part 1 and 2 Offenses.

**Degrees of Seriousness** — The Crime Index does not explicitly take into account the varying degrees of seriousness of its components. Each crime receives the same weight as it is added to the Index. Consequently, an auto theft is counted the same as a murder, and an aggravated assault is weighted equally with an attempted burglary. Any review of crime must consider the volume, rate, and trend of each offense that comprises the Index and the relationship between these crimes.

**UCR Classification and Scoring Procedures** — The North Carolina and National Uniform Crime Reporting Programs are designed to measure offenses committed and persons arrested, and difficulty can arise if this distinction is not kept firmly in mind. Crimes relate to events, but arrests relate to persons. The classifying and scoring of one robbery, for instance, could involve several offenders, several victims, and even the commission of other offenses which would go unreported for UCR purposes (see "Scoring of Offenses" in this Section).

Even more of the total crime picture is lost when arrests are scored. UCR counts only the number of people arrested and not the number of charges per person. Clearly, one arrest could involve any number of different or similar charges against one offender.

**Value of Property Stolen and Recovered** — What effect the rate of inflation may be having on the report of these data along with other factors affecting these sums is impossible to calculate. The UCR methods of valuing stolen property involve the acceptance of the victim's evaluation in most instances, and exaggeration of these figures is quite possible.

**Juvenile Crime Data** — The accuracy of juvenile offenses and arrest statistics varies from department to department since the procedures for handling juveniles are not nearly as uniform as those for adults. Many juvenile offenders are handled informally and, as a consequence, inaccurate or incomplete recording of the event or action may result. Furthermore, the degree of juvenile involvement in solved offenses is probably seriously misunderstood because juvenile participation in clearances is recorded only when juveniles are exclusively involved. When both adults and juveniles are subjects in a clearance, the juvenile participation is not reported.

**Reporting Variation** — North Carolina now receives Uniform Crime Reports from over 400 law enforcement agencies monthly. Because the number of reporting agencies is so large, one must be aware that unintentional variations from UCR guidelines may occur and pass undetected affecting the validity of the data presented here. Municipal ordinances, local criminal justice administrative policies, efficiency and thoroughness of record keeping, and Uniform Crime Reporting proficiency and practices all affect the amount of crime and arrests reported. Furthermore, socio-economic conditions and the characteristics and attitudes of the local population influence the magnitude and nature of criminal behavior in a community.

**Conclusion** — The preceding comments should not be viewed as an indictment of the Uniform Crime Reporting Program which, admittedly, was designed to meet only the minimal operational requirements of a law enforcement agency. It is doubtful that those people tasked with creating this program some sixty years ago could ever have envisioned the informational demands now being placed on today's law enforcement. While current methods of gathering and reporting crime and arrest data provide a less than complete picture of criminality in our society, there is at present no other information system in general use that will more adequately perform this task.

## The Index of Crime

The crime index offense table can be used to indicate the probable extent, fluctuation, and distribution of crime for the State of North Carolina as a whole, by geographic divisions, by individual counties and cities, and by standard metropolitan statistical areas. The measure used is a Crime Index and consists of seven important offenses which are counted as they become known to the law enforcement agencies. Crime classifications used in the Index are: murder and non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary-breaking and entering, larceny and motor vehicle theft.

The total number of criminal acts that occur is unknown, but those that are reported to law enforcement provide the first means of a count. Not all crimes come readily to the attention of law enforcement; not all crimes are of sufficient importance to be significant in an index; and not all important crimes occur with enough regularity to be meaningful in an index.

## Classification of Offenses

UCR divides offenses into two major classifications which are designated Part 1 and Part 2 offenses. This distinction is important to keep in mind because different information is collected for each. Part 1 offenses include the violent crimes of murder and non-negligent manslaughter, negligent manslaughter, forcible rape, robbery and aggravated assault and the property crimes of burglary, larceny-theft, motor vehicle theft and arson. All other offenses are classified as Part 2 offenses (see "Offense Definitions" in this section). The Part 1 offenses, excluding negligent manslaughter and arson, are used to calculate the Crime Index and Crime Rate.

All offenses are classified on the basis of law enforcement investigations in accordance with UCR offense definitions (which will not necessarily coincide with N.C. statute definitions). Because UCR identifies a law enforcement problem, offense classifications are not based on the findings of a court, coroner, jury or decision of a prosecutor.

## Scoring of Offenses

Only the number of those offenses for Part 1 crimes and simple assault are scored (counted) for UCR. The method of scoring varies with the type of crime committed and it is important to remember that the number of offenders does not determine the number of offenses.

For murder and non-negligent manslaughter, negligent manslaughter, rape, and aggravated and simple assault, one offense is scored for each victim, regardless of the number of offenders involved. For example, three offenders could be involved in the murder of one victim, and in this case one murder would be scored.

For robbery and larceny, one offense is counted for each distinct operation which is separate in time and place. The number of victims in any one operation does not determine the number of offenses. For example, if 10 people are robbed in a bar at the same time, only one offense is counted. However, if that robber then leaves the bar and holds up a passerby, a second offense has occurred and would be scored.

For burglary, one offense is counted for each "structure" which is illegally entered. For UCR purposes, a "structure" is generally defined as an enclosed, permanently occupied area. The illegal entries for the purpose of committing a felony or theft of such structures as dwelling houses, garages, offices, barns, and the like are considered burglaries, and one burglary is scored for each separate unit entered. The illegal entry of those structures used to house transients such as hotel rooms is scored as one burglary regardless of the number of these rooms that have been entered.

For motor vehicle theft, one offense is counted for each vehicle stolen. For UCR purposes, a motor vehicle is defined as any self-propelled vehicle that runs on the surface and not on rails or a body of water. Thefts of farm and construction equipment are excluded from this definition and are scored as larcenies. For arson, one offense is counted for each occurrence even if a more serious offense such as murder occurred as a result of the act. Additionally any attempts to commit any of the above offenses are also counted with the exception of attempts or assaults to kill which are classified and scored under aggravated assaults.

For multiple offenses that occur in one crime incident (at the same "time and place"), only the most serious offense is counted with the exceptions of arson (always counted) and a combination of larceny and motor vehicle theft (only the motor vehicle theft will be counted). Part 1 crimes are ranked according to seriousness and appear in order from most serious to least serious (See order of crimes in Offense Definitions in this section). For example, a robbery and an aggravated assault have occurred, but because robbery is considered by UCR to be more serious, only the robbery is scored. From one perspective, this method of counting seriously understates the crime problem, but from another, it prevents undue inflation of crime statistics. A Part 2 offense that occurs in combination with Part 1 offenses or by itself is not counted.

## Clearances

An offense is considered cleared (solved) when at least one offender is arrested for a crime, even though several may have been involved. Offenses may also be cleared by exceptional means when the offender: commits suicide; makes a dying declaration; confesses while in custody or serving time for another crime; is prosecuted in another jurisdiction for the same offense; is a juvenile who is handled by notifying the parents; or when the victim refuses to prosecute or another jurisdiction refuses to extradite.

Clearances are counted as either "adult" or "juvenile." A "juvenile" clearance is counted only when juveniles are involved exclusively in the commission and clearance of an offense. If the arrest of both adults and juveniles results in a clearance, it is counted as an "adult" clearance.

When examining clearance data, keep in mind that not all crimes are cleared within the calendar year in which the offense occurs. Also, note that the recovery of property stolen with regard to a specific offense does not, by itself, constitute a clearance for UCR purposes.

## Property Stolen and Recovered

The figures for value of property stolen and recovered report the value at each point in time. Although property can increase in value over time, it is more likely that stolen property will be recovered in a damaged condition. Therefore recovery value does not necessarily represent a "clearance rate" for stolen property, and one cannot use it to determine law enforcement effectiveness in recovering stolen goods. Because stolen and recovered property figures indicate thefts and recoveries in the current year, it is important to note that recovered property may have been stolen in a previous year. In addition, the type and value of stolen recovered property is reported only for Part 1 offenses and does not include property losses suffered as a result of the commission of any Part 2 offenses such as fraud or embezzlement.

As was stated under "UCR Limitations," these values are affected by many variables and must be considered estimates at best. It is sometimes difficult to trace the recovery of some stolen property back to the offense or even the departmental jurisdiction in which the theft occurred. This coupled with the fact that the market value at the time of recovery is used instead of at the time of the theft should prompt cautious analysis of this data.

## Arrests

Arrest information is collected for all Part 1 and Part 2 offenses according to the age, sex and race of the offender. It is not possible, however, to correlate race with sex or specific ages because the information is collected independently, thus limiting analysis. Furthermore, arrest figures cannot be directly related to the number of crimes cleared because arrest totals count all the offenders who have been arrested even if several were involved in the commission of a singular offense. Therefore, arrest and clearance totals will be equal only by coincidence.

It should be kept in mind that arrest totals are not indicative of the number of different people involved in the commission of crime. A total of three arrests may represent the arrest of three different people or the arrest of the same person on three different occasions. Moreover, arrest totals also do not indicate the number of charges placed against an individual at the time of arrest.

## Crime Factors

The amount and rate of crime for a particular community can sometimes be quite deceiving unless several factors are taken into consideration. Some of the factors which are known to affect the volume and type of crime occurring from place to place are:

Population density and degree of urbanization with size of locality and its surrounding area.
Variations in composition of the population, particularly youth concentration.
Stability of population with respect to residents' mobility, commuting patterns, and transient factors.
Modes of transportation and highway system.
Economic conditions, including median income, poverty level, and job availability.
Cultural factors and educational, recreational, and religious characteristics.
Family conditions with respect to divorce and family cohesiveness.
Climate.
Effective strength of law enforcement agencies.
Administrative and investigative emphases of law enforcement.
Policies of other components of the criminal justice system (i.e., prosecutorial, judicial and correctional).
Citizens' attitudes toward crime.
Crime reporting practices of the citizenry.

The Uniform Crime Reports give a statewide view of crime based on statistics contributed by law enforcement agencies. Population size is the only correlate of crime utilized in this publication. While the other factors listed above are of equal concern, no attempt is made to relate them to the data presented. The reader is, therefore, cautioned against comparing statistical data of individual reporting units from cities, counties, metropolitan areas, or colleges and universities solely on the basis of their population coverage or student enrollment.[1]

[1] *Crime in the United States* - 1995, United States Department of Justice, Federal Bureau of Investigation, p. iv.

# Offense Definitions

Offenses in Uniform Crime Reporting are divided into two groupings, Part I and Part II. Information on the volume of Part I offenses known to law enforcement, those cleared by arrest or exceptional means, and the number of persons arrested is reported monthly. Only arrest data are reported for Part II offenses.5

## Part I Offenses

**Criminal Homicide:**

a. Murder and nonnegligent manslaughter:
The willful (nonnegligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, accidental deaths, and justifiable homicides are excluded. Justifiable homicides are limited to: (1) the killing of a felon by a law enforcement officer in the line of duty; and (2) the killing of a felon by a private citizen.

b. Manslaughter by negligence:
The killing of another person through gross negligence. Traffic fatalities are excluded. While manslaughter by negligence is a Part I crime, it is not included in the Crime Index.

**Forcible Rape:**
The carnal knowledge of a female forcibly and against her will. Included are rapes by force and attempts or assaults to rape. Statutory offenses (no force used victim under age of consent) are excluded

**Robbery:**
The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

**Aggravated Assault:**
The unlawful attack by one person upon another for the purpose of inflicting severe bodily injury usually accompanied by the use of a weapon or other means likely to produce death or serious bodily harm. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed. Attacks using personal weapons (part of the attacker's body) must result in serious personal completed. Attacks using personal weapons (part of the attacker's body) must result in serious personal injury to be classified as aggravated assault. Simple assaults are excluded from this count.

**Burglary:**
The unlawful entry of a "structure" to commit a felony or theft. The use of force to gain entry is not required to classify the crime as burglary. Burglary is broken down into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

A "structure" is considered to include the following, but not limited to: dwelling houses, apartments, out buildings, public buildings, offices, factories, barns, cabins, etc.

**Larceny:**
The unlawful taking or stealing of property or articles without the use of force, violence, or fraud. This includes crimes such as shoplifting, purse snatching, pocket picking, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle theft, etc. This crime category does not include embezzlement, "con" games, forgery, and worthless checks. Motor vehicle theft is excluded from this category inasmuch as it is separate Part 1 offense.

**Motor Vehicle Theft:**
The unlawful taking or stealing of a motor vehicle, including attempts. This definition excludes taking for temporary use by those persons having lawful access to the vehicle.

UCR defines a motor vehicle as a self-propelled vehicle that runs on the ground and not on rails. Examples included automobiles, trucks, buses, motorcycles, mopeds, snowmobiles, etc. Thefts of farm and/or construction equipment, boats, and airplanes are not included in this category but are counted as larcenies.

**Arson:**
The willful or malicious burning of property with or without the intent to defraud. Includes attempts.

## Part 2 Offenses

**Other (Simple) Assaults:**
An unlawful attack or attempted attack upon another which does not result in serious injury to the victim and which does not involve the use of a dangerous weapon.

**Forgery and Counterfeiting:**
The making, altering, using or possession, with intent to defraud, of anything false which is made to appear true. Includes attempts.

**Fraud:**
Fraudulent conversion and obtaining money or property by false pretenses. Includes bad checks, confidence games, illegal conversion of services, etc., except forgeries and counterfeiting.

**Embezzlement:**
Misappropriation or misapplication of money or property entrusted to one's care, custody, or control. Includes larceny from employer.

**Stolen Property:**
The buying, receiving, and possessing of stolen property, or the attempt to do so.

**Vandalism:**
The willful or malicious destruction, injury, disfigurement or defacement of real or personal property without the consent of the owner or person having custody or control. Includes attempts.

**Weapons:**
All violations of regulations or statutes that control carrying, using, possessing, furnishing, and manufacturing deadly weapons or silencers. Includes attempts.

**Prostitution and Commercialized Vice:**
Sex offenses and attempted sex offenses of a commercialized nature. Includes prostitution, keeping houses of ill fame, pandering, detaining women for immoral purposes, etc.

**All Other Sex Offenses:**
All other offenses against common decency and morals. Includes statutory rape (without force) and all other sex offenses not previously defined.

**Drug Laws:**
The unlawful possession, sale, use, growth or manufacture of controlled substances. For UCR purposes these offenses are broken down into four subcategories: a. Opium or cocaine and their derivatives (morphine, heroin, codeine), b. Marijuana, c. Synthetic narcotics — manufactured narcotics which can cause true drug addiction, d. Dangerous non-narcotic drugs.

**Gambling:**
Promoting, permitting or engaging in illegal gambling. Includes bookmaking, numbers and lottery, etc.

**Offenses Against the Family or Children:**
All charges of nonsupport and neglect or abuse of family or children. Note: Most child abuse, especially that resulting in injury, has been classified as either simple or aggravated assault.

**Driving While Impaired:**
Operating any motor vehicle or common carrier whine under the influence of liquor or drugs.

**Liquor Laws:**
Violation of state or local regulator laws. Includes sale to minors and drinking on a public conveyance. This category excludes Driving While Impaired and Drunk and Disorderly violations.

**Disorderly Conduct:**
Breaching the peace or attempting to do so. Includes violations of disturbing the peace, unlawful assembly, and drunk and disorderly.

**Vagrancy:**
Violation of state or local statutes pertaining to being a "suspicious character or person", vagrancy, etc.

**All Other Offenses:**
All violations of state or local regulatory laws except traffic offenses and offenses defined above or below. Includes kidnapping, extortion, trespass, etc.

**Curfew and Loitering Laws:**
Juvenile violations of local curfew and loitering ordinances.

**Runaways - (Juveniles):**
The unlawful truancy from a legal place of residence by a juvenile.

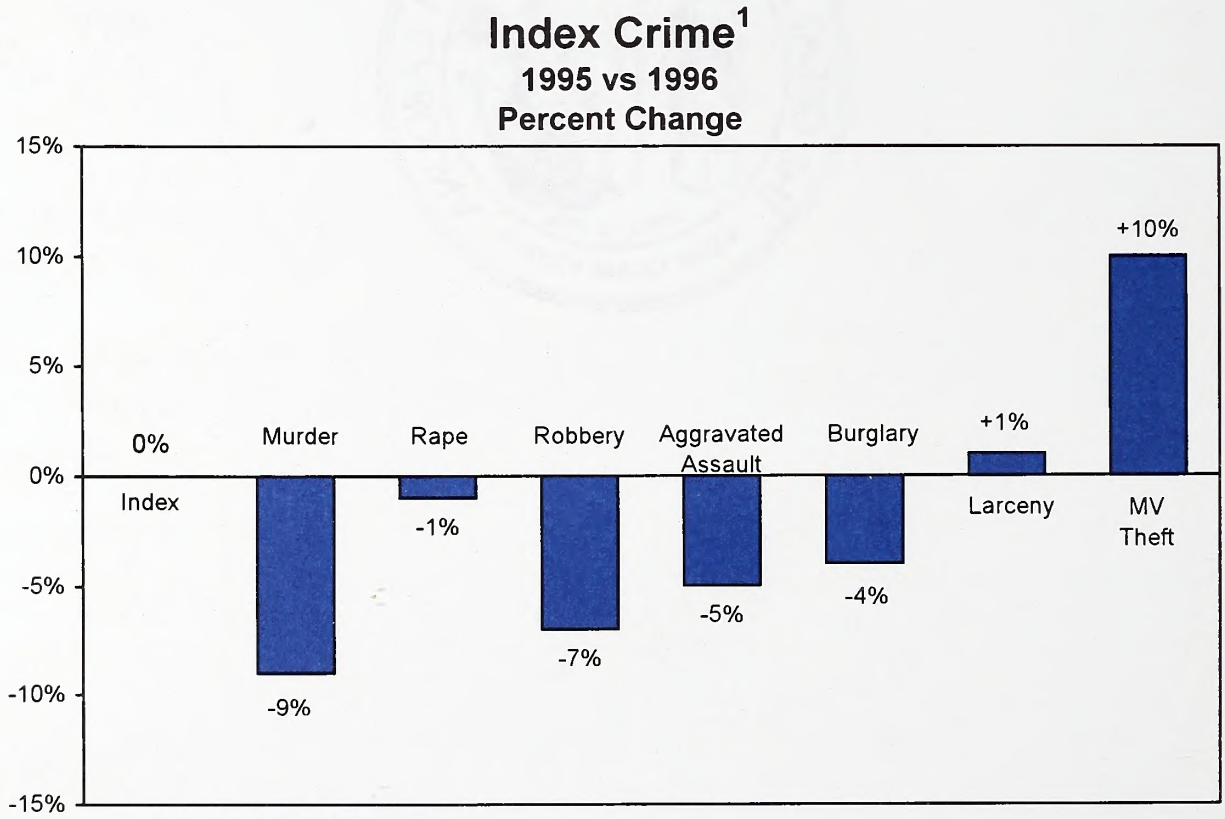
# SECTION III

# Crime Index Offenses

# The Crime Index

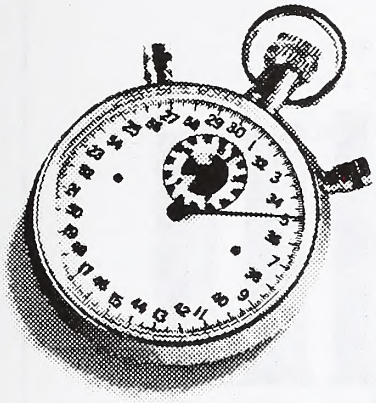
For the purposes of measuring the volume, fluctuation and the distribution of crime on the State and National level, the Uniform Crime Reporting Program is based on a Crime Index. The Crime Index consists of seven major crimes selected for use on the basis of their serious nature, their frequency of occurrence and on the reliability of reporting from citizens to law enforcement agencies.

The UCR Crime Index offenses and their definitions, listed in order of seriousness, are:
**Murder** - The willful (nonnegligent) killing of one human being by another.
**Forcible Rape** - The carnal knowledge of a female forcibly and against her will.
**Robbery** - The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.
**Aggravated Assault** - An unlawful attack by one person upon another for the purpose of inflicting severe bodily injury.
**Burglary** - The unlawful entry of a structure to commit a felony or theft.
**Larceny** - The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another.
**Motor Vehicle Theft** - The theft or attempted theft of a motor vehicle.



[1] While arson is considered an index crime, the number of arsons is not included in the Crime Index tables.

# North Carolina Crime Clock 1996



one
**Index Crime**
every 1 min. 9 sec.

one
**Violent Crime**
every 12 min. 21 sec.

one
**Murder**
every 14 hrs. 17 min.

one
**Rape**
every 3 hrs. 52 min.

one
**Robbery**
every 44 min. 13 sec.

one
**Aggravated Assault**
every 18 min. 55 sec.

one
**Property Crime**
every 1 min. 29 sec.

one
**Burglary**
every 5 min. 25 sec.

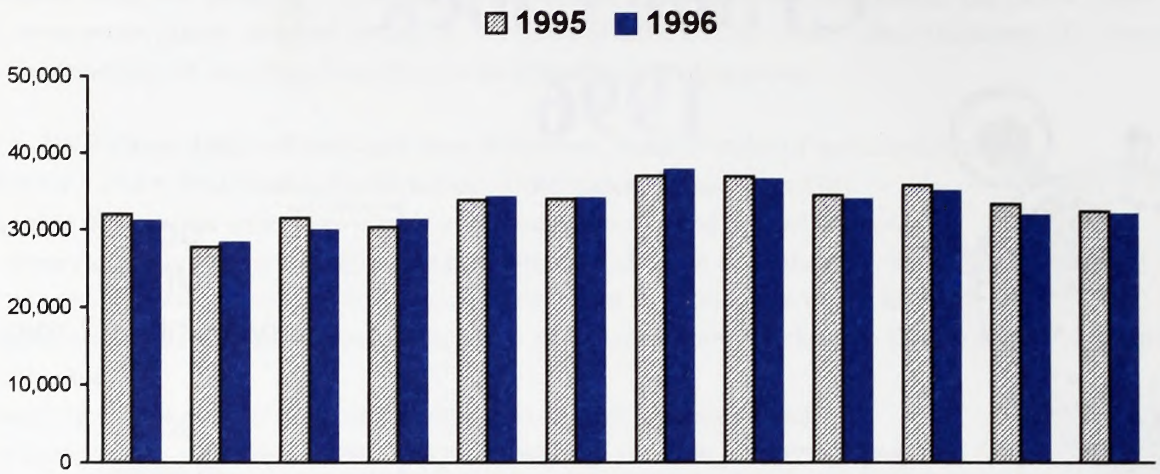
one
**Larceny**
every 2 min. 14 sec.

one
**Motor Vehicle Theft**
every 21 min. 39 sec.

The Crime Clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Index Offenses. The mode of display should not be taken to imply a regularity in the commission of the offenses; rather, it represents the annual ratio of crime to fixed time intervals.

# Total Index Crime

## Index Crime By Month



| | JAN | FEB | MAR | APR | MAY | JUN | JUL | AUG | SEP | OCT | NOV | DEC | TOTAL |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|

# Violent Crime

Violent Crime consists of the sum total of murders, rapes, robberies, and aggravated assaults. All violent crimes involve force or threat of force. With the exception of robbery, one violent crime is counted for each person victimized. In the instance of robbery, each act or operation is counted as one offense as it is added to the crime total.

[1]Percentages may not equal 100% due to rounding.

[2]Present UCR classification and scoring procedures prevent a precise measurement of these classifications and their corresponding values (see **Scoring of Offenses** in Section 2). Further, the total value stolen cannot be determined at the time of police investigation. This is especially true with regard to bank robbery. Compare the bank robbery statistics in this table with those provided on the following page by the FBI.

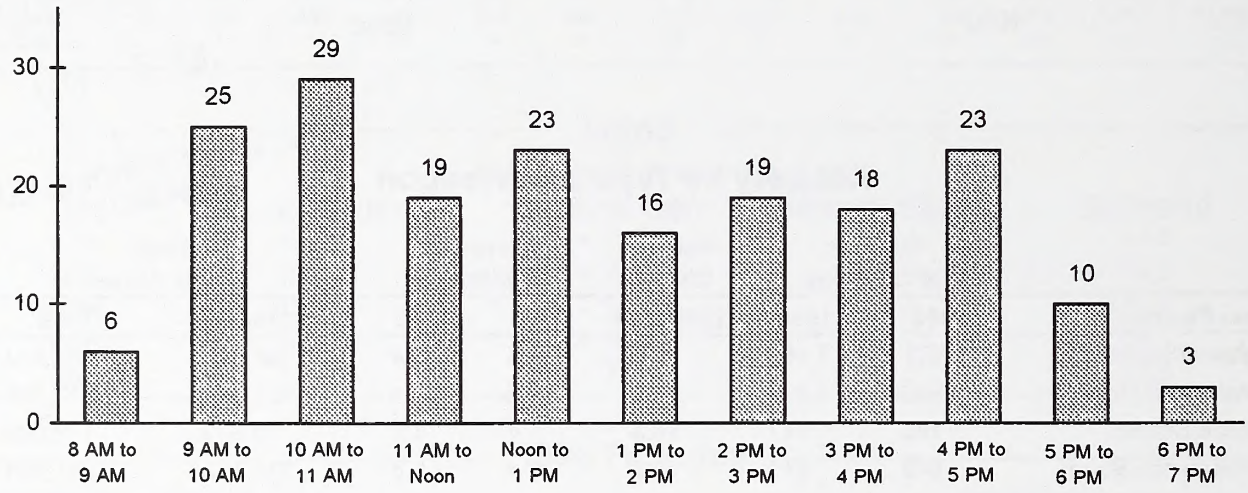
# Bank Robbery[1]

## Bank Robberies by Type and Value

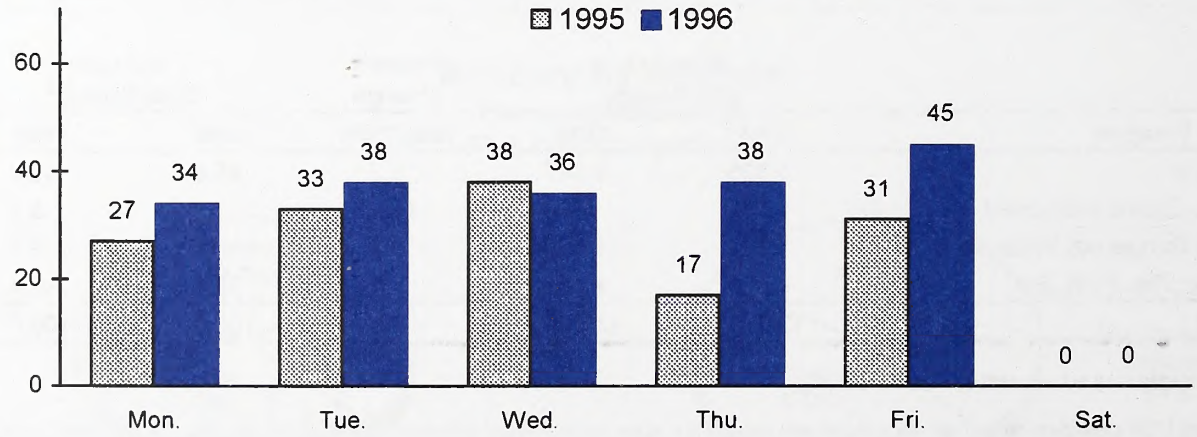
| Type of Banking Institution | 1995 | 1996 |
|---|---|---|
| Commercial Bank | 135 | 177 |
| Savings and Loan Institution | 11 | 14 |
| **Total** | 146 | 191 |
| **Value** | | |
| Value of Property Stolen | $865,489 | |
| Average Value Per Offense | $ 5,928 | Not Available |
| Value Initially Recovered | $138,858 | |

## Bank Robberies by Time of Day

Number of Robberies Total 191



## Bank Robberies by Day of Week



[1]These bank robbery statistics are supplied by the Federal Bureau of Investigation and include only Federally insured institutions.

# North Carolina Contributing Agency Profile

## Introduction

The following tables contain statistical data contributed by N.C. law enforcement agencies for the years 1995 and 1996. Each county is listed alphabetically. Agencies within each county are listed in order of participation (Sheriff listed first). All data is final as of April 8, 1997. Please note that 1995 data has been updated since the last annual release reflecting the addition of reports received after the 1995 publication deadline.

## Crime Rate

In the table entitled "Crime Rates Per 100,000 By County" (pp.70-71) the crime rates have been determined by dividing 100,000 by the estimated population and multiplying this factor by the total number of offenses reported in each instance. For example:

| | Year | | Total Index | | Estimated Population |
|---|---|---|---|---|---|
| Agency A | 1996 | | 2,000 | | 25,000 |
| Computation: | 100,000 | ÷ | 25,000 | = | 4.0 |
| | 4.0 | x | 2,000 | = | 8,000.0 |

Therefore, the rate per 100,000 population for Agency A's total index would equal 8,000.

## Crime Index

In the table entitled "Agency Profile" (pp. 72-127) the **Crime Index Total** column reflects the addition of the seven Index offenses which appear under the **Violent** and **Property Crime** headings. The number of reported arsons has not been included as part of the **Crime Index**, nor as part of the **Crime Index Total**, nor as a factor in the crime rate calculations.

All county totals include those offenses reported by the State Highway Patrol. The total number of offenses reported statewide by the Wildlife Commission is listed separately at the end of the table.

## Percent Changes

Space did not allow for the calculation of percent changes from year to year, but this change may be obtained by subtracting the smaller number from the larger number and dividing the difference by the 1995 figure. Multiply by 100 to change to percent and determine the sign (plus or minus) by whether the number increased or decreased in 1996. For example:

| | Year | | Total Index | | |
|---|---|---|---|---|---|
| Agency A | 1995 | | 1,500 | | |
| | 1996 | | 2,000 | | |
| Computation: | 2,000 | - | 1,500 | | 500 |
| | 500 | ÷ | 1,500 | = | .333 (x 100) = 33.3% |

Since the number of reported offenses increased in 1996, the percent change would equal to +33 (rounded to the nearest whole number).

## Arson

Many N.C. law enforcement agencies do not routinely investigate the offense of arson unless this crime has been committed in conjunction with the occurrence of some other offense (such as murder, burglary, etc.). Arson investigation remains predominantly within the domain of fire services in North Carolina, and therefore many of these offenses occur and go unreported to local law enforcement.

Since the N.C. UCR Program does not collect statistics directly from the fire service community, the extent of arson as a crime problem in this state may be severely underestimated based upon the statistics contained in this publication. The number of arsons reported as stated in these tables are only those of which N.C. law enforcement have been made aware.

## Months (Mos.) On File

The **Months on File** column indicates the number of months reported for each year on file at DCI. The "History of Contributor Participation" section in this publication charts the exact months by agency for which DCI is missing UCR data.

## Demographic Data

The 1995 and 1996 population estimates have been provided by the Office of State Planning under the Governor's Office and are based on the 1990 Census figures. The population of non-jurisdictional areas such as military installations have been subtracted from these estimates when necessary. The fact that these estimates do not take into account the seasonal population fluctuations of resort and campus localities, analysis of crime rates in these particular areas should be viewed with caution.

## Community Types

The crime statistics reported by an individual agency indicate what is happening in one particular area. To make valid comparisons among a number of jurisdictions, communities need to be grouped together. It may be important to know how a city compares with cities of similar size, or how patterns of crime differ in various types of communities. For these reasons DCI has assigned a character designation to each jurisdiction according to those factors which go into defining an area as either urban or rural. A somewhat simplified concept of the Metropolitan Statistical Area (MSA) has been used for these differentiations.

Each MSA includes a core city of at least 50,000 people or an urbanized area of at least 50,000. The county containing the core city and other contiguous counties having strong economic and social ties to the central city and county are also included. Counties in a MSA are designated "suburban" for UCR purposes. A MSA may cross states lines as in the Norfolk-Virginia Beach-Newport News MSA of which Currituck County is a part. See the North Carolina MSA map on page 69.

The following is an outline of the community types:

**Core City:** Any city with a population of 50,000 or more that is within a MSA.
**Suburban City:** Any city that is within a MSA exclusive or the core cities.
**Suburban County:** Any county that is within a MSA.

**Rural Center:** Any city with a population of 10,000 or more that is not within a MSA.
**Rural City:** Any city under 10,000 population and not within MSA.
**Rural County:** Any county that is not within a MSA.

Obviously, these categories could be broken down further into even more specific community types employing a wide range of other data such as population density, projected growth, etc., but the designations outlined above will satisfactorily serve the purposes for which the statistical data have been intended.

## Employee Data

The Police Employee data provided lists the number of those full-time sworn and civilian people employed at each agency as of October 31 of the year indicated. The number of part-time employees is not listed but is available upon request.

## Special Characters

Variations in agency reporting have caused for special characters to be used in place of statistical data in some instances. The following legend translates these characters.

Cover - Indicates this area was covered by another agency for crime reporting purposes for all or most of the reporting year.

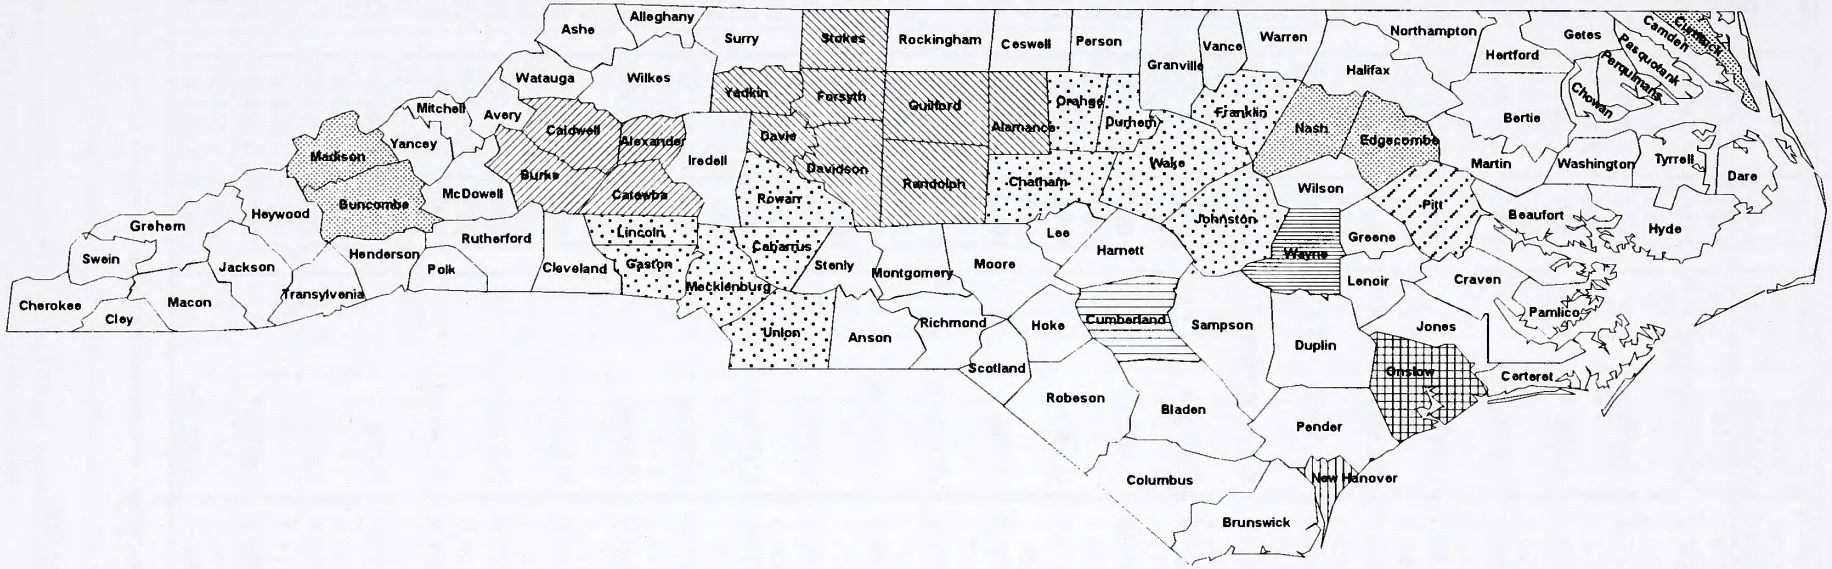
DNP - Did not participate in the UCR Program for whatever year indicated.

NA - Not Applicable. This character was generally used whenever a reasonable crime rate could not be calculated.

(Pop.) - The population for this jurisdiction was not included in the county or state totals because of non-UCR participation.

**Note:** All UCR data provided is actual. Estimates for 100% population coverage have not been used.

# N.C. Metropolitan Statistical Areas



## MSA's by City and County:

1. Asheville (Buncombe and Madison Counties)
2. Charlotte-Gastonia-Rock Hill (Cabarrus, Gaston, Lincoln, Mecklenburg, Rowan and Union Counties)
3. Fayetteville (Cumberland County)
4. Goldsboro (Wayne County)
5. Greensboro-Winston Salem-High Point (Alamance, Davidson, Davie, Forsyth, Guilford, Randolph, Stokes and Yadkin Counties)
6. Greenville (Pitt County)
7. Hickory-Morganton (Alexander, Burke, Caldwell and Catawba Counties)
8. Jacksonville (Onslow County)
9. Norfolk-Virginia Beach-Newport News (N.C. Part-Currituck County)
10. Raleigh-Durham-Chapel Hill (Chatham, Durham, Franklin, Johnston, Orange and Wake Counties)
11. Rocky Mount (Edgecombe and Nash Counties)
12. Wilmington (New Hanover County)

# Crime Rates Per 100,000 By County

| County | Year | Index Crime Rate[1] | Violent Crime Rate | Property Crime Rate | County | Year | Index Crime Rate[1] | Violent Crime Rate | Property Crime Rate |
|---|---|---|---|---|---|---|---|---|---|
| Alamance | 1995 | 4,466.0 | 486.7 | 3,979.2 | Cumberland | 1995 | 8,418.7 | 996.0 | 7,422.6 |
| | **1996** | **4,617.3** | **531.1** | **4,086.2** | | **1996** | **7,549.2** | **621.0** | **6,928.2** |

[1]The arson totals are not included in the Crime Index Offenses.
[2]Violent crimes are offenses of murder, rape, robbery and aggravated assault.
[3]Property crimes are offenses of burglary, larceny and motor vehicle theft.
[4]The 1995 campus population includes fall of 1994 dormitory residents only and the 1996 campus population includes fall of 1995 dormitory residents only.
[5] A procedural reporting error resulted in the over reporting of aggravated assaults in Fayetteville for 1995.
[6]Does not include 1995/1996 high school dormitory population of 187. (Statistical Abstract of Higher Education 1995 -1996.) Also see footnote 4.
[7]In 1995, Taylortown was covered by Moore County Sheriff's Department from January to April and reported data from May to December.

[1]Index Crime includes the total number of violent crimes (murder, rape, robbery and aggravated assault) and property crimes (burglary, larceny and motor vehicle theft).

# SECTION IV

# Hate Crime

# Hate Crime Reporting
# 1996

**Introduction**

In response to a growing concern about hate crimes, the President of the U.S. signed into law on April 23, 1990, the Hate Crime Statistics Act of 1990. The Act required the U.S. Attorney General to establish guidelines and collect, through the UCR Program, data "about crimes that manifest evidence of prejudice based on race, religion, sexual orientation, or ethnicity, including where appropriate the crimes of murder, forcible rape, aggravated assault, simple assault, intimidation, arson and destruction or vandalism of property."

The enactment of Federal legislation requiring the collection and publication of nationwide hate crime statistics prompted the N.C. General Assembly to pass hate crime legislation. This legislation allows for stiffer penalties for crimes committed solely on the basis of hate and provided funding for the N.C. Justice Academy to train law enforcement agencies in hate crime reporting. The N.C. Justice Academy began training law enforcement agencies during the fall of 1992 and that training continues statewide.

The Division of Criminal Information (DCI) provides assistance to agencies in hate crime reporting by providing forms, reporting assistance and statistical analysis. From 1992 through 1994, DCI received a limited number of hate crime reports. However, the number of law enforcement agencies involved in the collection of hate crime data is increasing. In 1995, fifty-nine agencies reported 52 hate crime incidents to DCI and in 1996 eighty-three agencies reported 34 hate crime incidents. While this limited participation is not sufficient to allow valid statewide measures of the volume and types of crimes motivated by hate, these reports do offer perspectives on the general nature of hate crime occurrences.

**Methodology**

This section contains tables that address the volume and types of bias-motivated criminal incidents reported to the DCI during 1996. Criminal incidents can involve more than one offense, victim, or offender. For counting purposes, one offense is counted for each victim of a "crime against person." One offense is counted for each distinct operation of "crime against property," regardless of the number of victims.

## Agencies Reporting Hate Crime by Bias Motivation - 1996

| Agency Name | Number of Incidents | Race | Ethnicity | Religion | Sexual Orientation |

| Destruction/Damage/ Vandalism | 18 | 19 | 8 |

[1]Statewide population coverage under the Uniform Crime Reporting Program, excluding Hate Crime Reporting, averaged 98.3% in 1996.

[2]The number of offenses may be greater than the number of victims due to multiple offenses against a single victim.

[3]The actual number of known offenders is 27. However, some offenders committed more than one offense per incident and are, therefore, counted more than once in this table.

# SECTION V

# Value of Property Stolen and Recovered

# Property Stolen and Recovered 1996

The tables and charts on the following pages indicate the value of property stolen and recovered by month, type and offense in North Carolina during 1996. These values relate only to Index Crime. Property lost or damaged as a result of crimes such as fraud, embezzlement, vandalism, and the remainder of the non-index offenses are not included in these totals.

## Value of Property Stolen and Recovered By Month

| Month | Value Stolen | Value Recovered | % Recovered |
|---|---|---|---|
| January | $ 28,510,260 | $ 9,047,708 | 31.73 |
| February | 24,537,260 | 8,072,975 | 32.90 |
| March | 26,940,188 | 8,630,195 | 32.03 |

# SECTION VII

# Law Enforcement Officers Killed and Assaulted

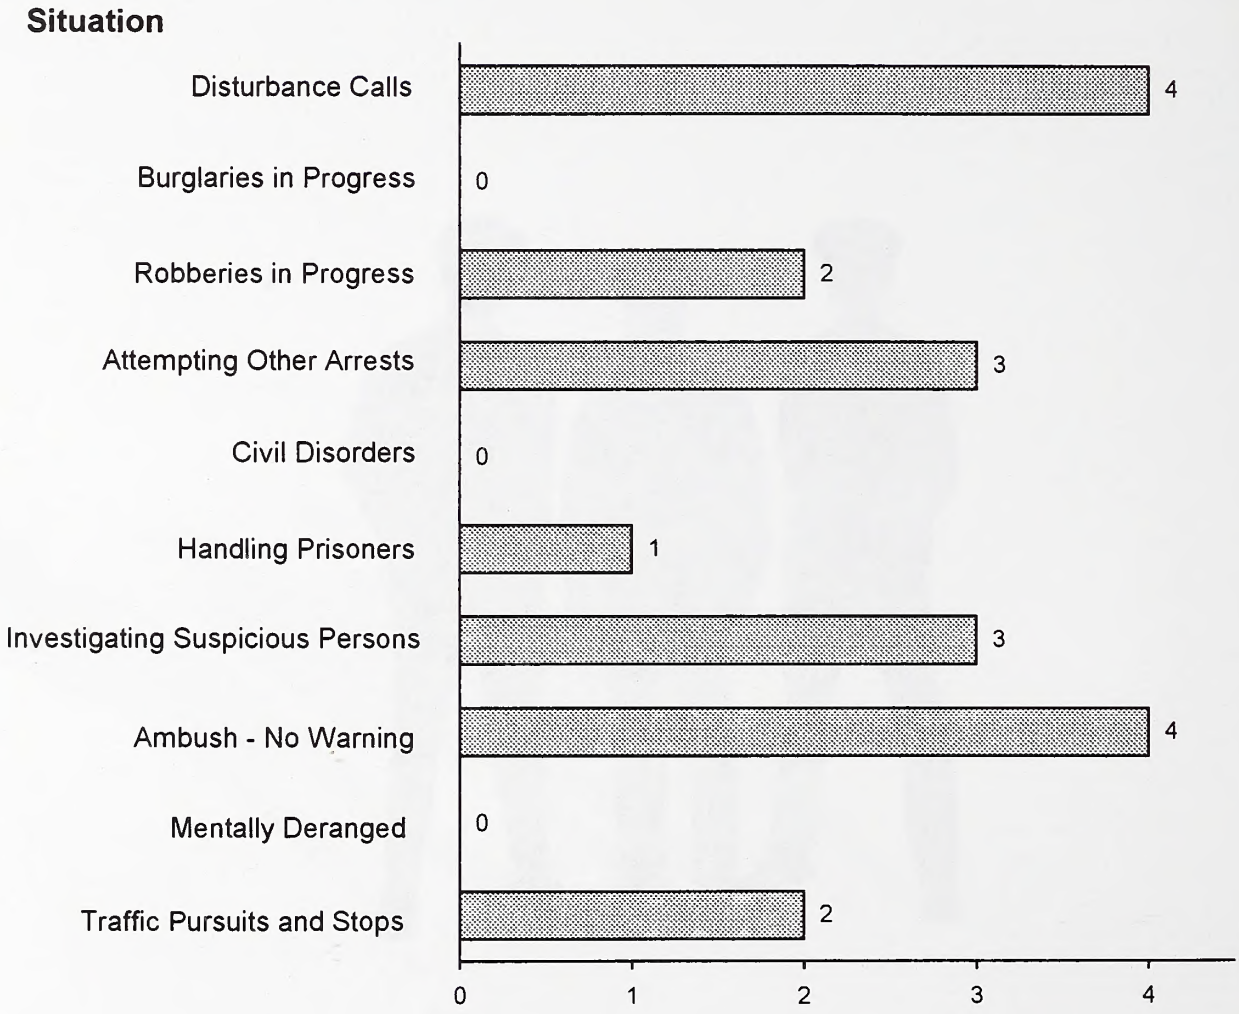
# Officers Killed
# 1996

During 1996, the state of North Carolina lost two law enforcement officers who were feloniously killed while performing their duty.

On April 15, 1996, Officer Damon Franklin Smith was shot and killed after responding to a domestic disturbance call. Officer Smith had served the Oakboro Police Department for approximately five months.

On October 5, 1996, Officer Gregory Keith Martin was shot and killed while conducting a routine traffic stop. Officer Martin had served the Jonesville Police Department for four years.

## Situations in Which N.C. Law Enforcement Officers Were Killed 1987 to 1996



Nineteen officers have been killed in the last ten years.

# SECTION VIII

# Uniform Crime Reporting Summary

# Index Crime
# Distribution and Clearance Rates
# 1995 - 1996

The percentage of crimes cleared by arrest is obtainable by dividing the number of offenses cleared by the number of offenses known and multiplying the resultant by 100 as:

$$\frac{\text{50 (robberies cleared)}}{\text{153 (robberies known)}} \times 100 = 32.67 \text{ percent cleared.}$$

The table below sets forth the distribution of each Index crime reported as well as the number and percentage cleared by arrest or exceptional means in 1995 and 1996.

| | 1995 | | | | 1996 | | | |
|---|---|---|---|---|---|---|---|---|
| Offense | Number of Offenses | Percent Distribution | Number Cleared | Percent Cleared | Number of Offenses | Percent Distribution | Number Cleared | Percent Cleared |
| Murder | 673 | 0.2 | 547 | 81.3 | 613 | 0.2 | 481 | 78.5 |
| Rape | 2,296 | 0.6 | 1,335 | 58.1 | 2,264 | 0.6 | 1,328 | 58.7 |
| Robbery | 12,776 | 3.2 | 4,225 | 33.1 | 11,885 | 3.0 | 3,979 | 33.5 |
| Agg. Assault | 29,270 | 7.3 | 16,635 | 56.8 | 27,794 | 7.0 | 16,468 | 59.3 |
| Burglary | 100,800 | 25.2 | 16,349 | 16.2 | 97,002 | 24.3 | 15,713 | 16.2 |
| Larceny | 232,006 | 58.0 | 41,326 | 17.8 | 234,985 | 58.9 | 45,751 | 19.5 |
| MV Theft | 22,131 | 5.5 | 5,786 | 26.1 | 24,279 | 6.1 | 6,208 | 25.6 |

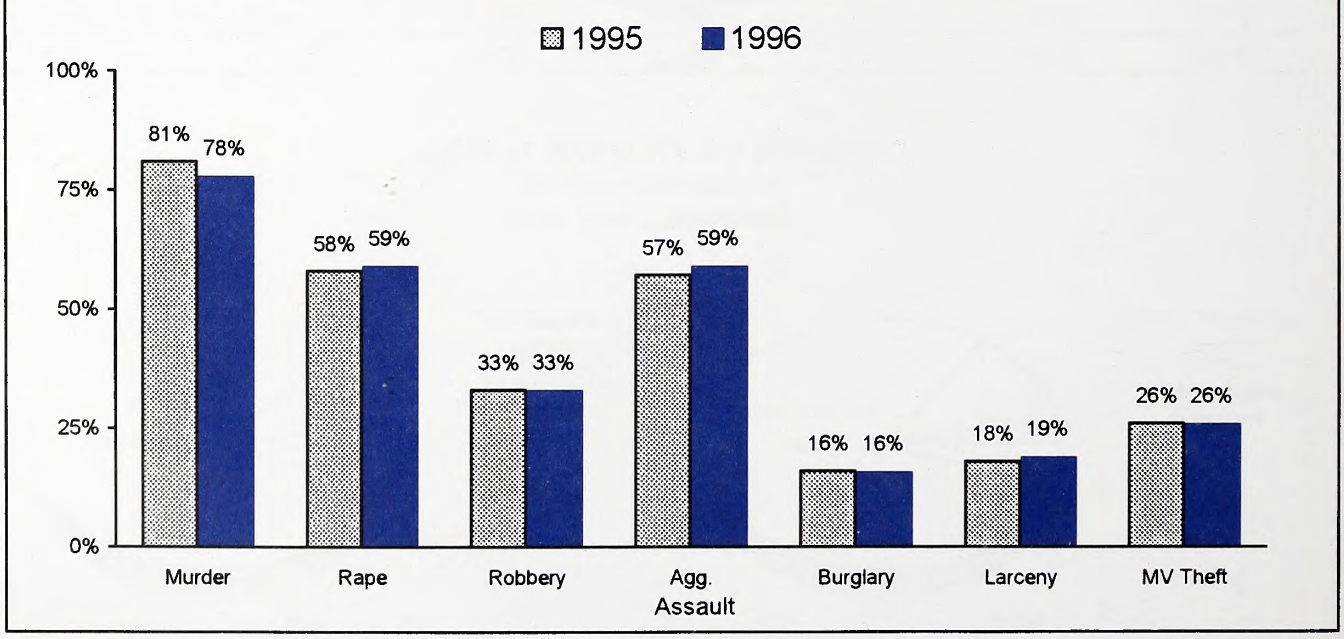
| Property | 354,937 | 88.7 | 63,461 | 17.9 | 356,266 | 89.3 | 67,672 | 19.0 |
| Index Total | 399,952 | 100.0 | 86,203 | 21.6 | 398,822 | 100.0 | 89,928 | 22.5 |

## Percent of Index Offenses Cleared



# Index Crime Arrests and Rates per 100,000 Population
# 1995 - 1996

The information below reflects the number of arrests made for Index crimes, the percent change in the number of arrests, and the rate of arrest per 100,000 for 1995 and 1996.

| CATEGORY | 1995 Arrests | 1996 Arrests | 95/96 % Change | 1995 Arrest Rate[1] | 1996 Arrest Rate[2] |
|---|---|---|---|---|---|
| Murder | 756 | 699 | - 7.5 | 10.9 | 9.9 |
| Rape | 746 | 781 | + 4.7 | 10.8 | 11.0 |
| Robbery | 4,085 | 4,041 | - 1.1 | 58.9 | 57.2 |
| Aggravated Assault | 20,687 | 21,454 | + 3.7 | 298.3 | 303.5 |
| Burglary | 16,129 | 15,441 | - 4.3 | 232.6 | 218.5 |
| Larceny | 39,371 | 40,877 | + 3.8 | 567.7 | 578.3 |
| MV Theft | 2,418 | 2,389 | - 1.2 | 34.9 | 33.8 |
| Violent Crime | 26,274 | 26,975 | + 2.7 | 378.8 | 381.6 |
| Property Crime | 57,918 | 58,707 | + 1.4 | 835.1 | 830.6 |
| Index Crime Total[3] | 84,192 | 85,682 | + 1.8 | 1,213.9 | 1,212.2 |

[1] Estimated population coverage was 6,935,705 in 1995.
[2] Estimated population coverage was 7,068,035 in 1996.
[3] Excludes arson.

# Value of Property Stolen and Recovered
# 1995 - 1996

The information below reflects the amount of property stolen and recovered during 1995 and 1996 as well as the value stolen for each offense category.

| Property Summary | 1995 | 1996 |
|---|---|---|
| Value of Property Stolen | $320,282,953 | $370,458,603 |
| Value of Property Recovered | $ 96,270,042 | $118,429,954 |
| Net Loss | $224,012,911 | $252,028,649 |
| Percent Recovered | 30.06% | 31.97% |
| Average Stolen Monthly | $ 26,690,246 | $ 30,871,550 |
| Average Recovered Monthly | $ 8,022,504 | $ 9,869,163 |

| Value Stolen by Offense | 1995 | 1996 |
|---|---|---|
| Murder | $ 76,879 | $ 62,745 |
| Rape | $ 46,319 | $ 49,593 |
| Robbery | $ 7,927,070 | $ 9,450,934 |
| Aggravated Assault | * | * |
| Burglary | $ 88,122,344 | $ 93,148,276 |
| Larceny | $109,724,225 | $118,733,549 |
| Motor Vehicle Theft | $114,386,116 | $149,013,506 |
| Total Stolen | $320,282,953 | $370,458,603 |

# History of Contributor Participation

# Comparative Contributor History

The table below reflects by month the total number of law enforcement agencies that participated in the N.C. UCR Program during the last five years.

| Month | 1992 | 1993 | 1994 | 1995 | 1996 |
|---|---|---|---|---|---|
| January | 445 | 441 | 455 | 461 | 471 |
| February | 444 | 439 | 455 | 463 | 470 |
| March | 446 | 441 | 455 | 462 | 466 |
| April | 445 | 446 | 455 | 462 | 467 |
| May | 444 | 446 | 452 | 462 | 468 |
| June | 445 | 449 | 456 | 463 | 469 |
| July | 444 | 448 | 456 | 466 | 468 |
| August | 442 | 451 | 457 | 466 | 468 |
| September | 440 | 454 | 454 | 466 | 470 |
| October | 441 | 455 | 457 | 468 | 469 |
| November | 441 | 456 | 458 | 463 | 468 |
| December | 439 | 455 | 459 | 461 | 468 |
| Average | 443 | 448 | 455 | 463 | 468 |

# Population Coverage

The table below reflects by month the percent of total N.C. population covered by law enforcement agencies which have participated in the N.C. UCR Program during the last five years.

| Month | 1992 | 1993 | 1994 | 1995 | 1996 |
|---|---|---|---|---|---|
| January | 98.2 | 97.4 | 98.3 | 98.3 | 98.6 |
| February | 98.2 | 97.4 | 98.3 | 98.4 | 98.6 |
| March | 98.3 | 97.4 | 98.3 | 98.5 | 98.3 |
| April | 98.3 | 97.5 | 98.3 | 98.5 | 98.3 |
| May | 98.1 | 97.5 | 97.8 | 98.5 | 98.3 |
| June | 98.1 | 97.5 | 97.8 | 98.4 | 98.3 |
| July | 98.2 | 97.5 | 97.9 | 98.6 | 98.3 |

# SECTION IX

# Incident-Based Reporting

# Incident-Based Reporting

The Division of Criminal Information (DCI) has developed an Incident-Based Reporting Program (IBASE) similar to the National Incident-Based Reporting System (NIBRS) developed by the Federal Bureau of Investigation. With IBASE, DCI has overcome many of the limitations of crime analysis imposed by the summary-based Uniform Crime Reporting (UCR) Program simply by changing the method by which crime data is collected and compiled in this state. IBASE offers a crime reporting program that is more comprehensive, detailed, accurate, and flexible than the earlier, summary-based UCR program. IBASE dramatically enhances the capacity for crime analysis at the State and local levels, putting law enforcement agencies in a better position to define their needs, justify expenditures, and allocate existing resources for maximal effectiveness and efficiency.

The structure of the UCR program has changed very little since it was established in North Carolina in the early 1970's. As a voluntary reporting program, more than 450 law enforcement agencies have reported data monthly to DCI on the number of Part I offenses and Part I and Part II arrests that have occurred within their respective jurisdictions. (See Section II for a listing of Part I and Part II offenses.) Although summary-based UCR data are used by researchers, legislators, municipal planners, the press, and the public, its structure limits how the data can be used. As an aggregate reporting program, the UCR produces counts of specific types of offenses, but it does not permit the examination of complex relationships among variables. Limited detailed offense information is collected only on the eight Part I offenses (also known as Index offenses). Even with this detailed data, reporting provisions of the UCR program obscure or ignore what may be a substantial volume of crime. For example, the "hierarchy rule" limits the reporting of multiple offenses that have been committed within the course of a single criminal incident to the single most serious offense.

Several notable differences distinguish IBASE from summary-based UCR, such as the ability to distinguish between attempted and completed crimes, expanded victim/offender relationship data, expanded data on the circumstances of an offense, and elimination of the hierarchy rule. The most important and fundamental difference, however, is that in Incident-Based Reporting, individual records relating to each distinct crime incident and its associated arrest, rather than monthly summaries, are captured by local law enforcement agencies. This is a significant shift in reporting practice. Rather than gathering summary statistics and raw counts of the number of crimes reported within a jurisdiction, IBASE promises a wealth of detailed data on offenses, victims, and offenders. By capturing these detailed data in an Incident-Based Reporting format, practitioners and researchers will be able to undertake sophisticated analysis of crime within a jurisdiction and link demographic and economic data. By including the originating agency case number, practitioners and researchers will be able to link these data to other databases that include the case number.

In addition to changing the fundamental reporting structure underlying crime and arrest data, IBASE captures data on an expanded range of offenses, far beyond the eight Part I offenses. Taken as a whole, these changes substantially increase the analytic potential of crime data. The Incident-Based structure means that the system is more accurate, complete, and flexible than possible under the current UCR program. It is easier to correct errors, utilize edit checks, adjust for cleared offenses, and improve audit capabilities. It also will be easier to collect additional information as needed in the future.

Since IBASE began in 1980, DCI has converted more than 430 agencies of the 460 reporting agencies to Incident-Based Reporting. While the remaining-summary based reporting agencies are small in number, 37 percent of the population is covered by these reporting agencies. Without the participation of the larger agencies, statewide analysis would not be meaningful. With increased automation of law enforcement records, DCI hopes statewide Incident-Based Reporting will become a reality in the near future.

This Section contains Incident-Based offenses for those agencies that have submitted twelve months of data for 1996. In addition, 1995 data will be included if the agency submitted twelve months of data for that year.

# APPENDIX

## Glossary of Terms and Abbreviations

# Glossary of Terms and Abbreviations

**Adult** - For Uniform Crime Reporting (UCR) purposes, a person 18 years of age or older. (N.C. criminal statutes define an adult as a person 16 years of age or older).

**Arrest Rate** - The number of arrests reported for each unit of population (per 100,000 people in this publication).

**Classifying** - Determining the correct UCR Part 1 or Part 2 offense category based on the facts contained in the police investigation report.

**Clearance Rate** - The percentage of offenses cleared which is obtained by dividing the number of clearances made in any particular offense category by the number of offenses reported in that same category.

**Cleared by Arrest** - For UCR purposes, an offense is considered cleared (solved) by arrest when at least one person involved in the commission of the offense is: 1) arrested, 2) charged with the commission of the offense, and 3) turned over for prosecution.

**Cleared by Exceptional Means** - For UCR purposes, an offense is considered exceptionally cleared (solved) in those instances in which law enforcement has: 1) definitely established the identity of the offender, 2) enough information to support an arrest, charge, and turning over to the court for prosecution, 3) in their knowledge the exact location of the offender so that the subject could be taken into custody, and yet 4) some reason outside their control precludes arresting, charging, and prosecuting the offender.

**Cover** - Indicates an area was covered by another agency for crime reporting purposes for all or most of the reporting year.

**Crime Factor** - Any condition which may affect the amount and type of crime that occurs in a geographical area.

**Crime Index** - The sum total of seven major offenses used to measure the extent, fluctuation, and distribution of crime in a given geographical area. Crime classification presently used in the index are: 1) murder, 2) forcible rape, 3) robbery, 4) aggravated assault, 5) burglary, 6) larceny, and 7) motor vehicle theft. Note that although arson is considered an index crime, the number of these offenses reported does not now constitute part of the Crime Index in North Carolina.

**Crime Rate** - The number of index offenses (less arson) reported for each unit of population (per 100,000 people in this publication).

**DCI** - Division of Criminal Information, a division of the State Bureau of Investigation and administrators of the N.C. Uniform Crime Reporting Program.

**DNP** - Did not participate in the Uniform Crime Reporting Program for whatever year indicated.

**FBI** - Federal Bureau of Investigation, a division of the U.S. Department of Justice and administrators of the National Uniform Crime Reporting Program.

**Hierarchy Rule** - A standard UCR scoring practice in which only the most serious offense (as determined by the established index crime order) is counted in a multiple offense situation. For exceptions to this rule see the section in this publication entitled "Considerations for Interpretation."

**Hotel Rule** - A standard UCR scoring practice which limits to one the number of burglaries which can be counted when more than one room is entered for the purpose of committing a felony or theft within a structure generally intended to house transients.

**Incident-Based Reporting** - A less restrictive and more expansive method of collecting crime data (as opposed to Summary Reporting) in which all the analytical elements associated with an offense or arrest are compiled by a central collection agency on an incident by incident basis.

**Index Crime** - Any one of eight major offenses used to measure the extent, fluctuation, and distribution of crime in a given geographical area. The eight index crimes are: 1) murder, 2) forcible rape, 3) robbery, 4) aggravated assault, 5) burglary, 6) larceny, 7) motor vehicle theft, and 8) arson.

**Justifiable Homicide** - The killing of a felon (while the subject is in the act of committing a felony) by a private citizen or police officer in the line of duty. Justifiable homicides are unfounded murders and are, therefore, not counted as part of the sum total of murders reported in the Crime Index.

**Juvenile** - For UCR purposes, a person under the age of 18. (N.C. criminal statutes define a juvenile as a person under the age of 16).

**MSA** - Metropolitan Statistical Area.

**NA** - Not Applicable. This character was generally used whenever a reasonable crime rate or percent change could not be calculated.

**Part 1 Offenses** - The first of two main groupings of UCR crime classifications consisting of the eight index crimes plus manslaughter by negligence. Part 1 offenses are by their very nature generally more serious and/or occur more frequently than the Part 2 offenses.

**Part 2 Offenses** - The second of two main UCR groupings of crime classifications consisting of all other crime categories not already designated as Part 1 excluding minor traffic violations. Part 2 offenses are generally less serious in nature and/or occur less frequently than the Part 1 offenses. With the exception of simple assault, monthly tabulation of Part 2 offenses is limited to arrest information only in the Summary Reporting System.

**Police Employee Rate** - The number of full-time sworn law enforcement officers employed for each unit of population. Local rates may be obtained by dividing 1,000 (for rate per 1,000 people) by the population of the city or county jurisdiction and multiplying this factor by the number of full-time sworn.

**Property Crime** - Any one of the sum total (less arson) of the following offenses: 1) burglary, 2) larceny, 3) motor vehicle theft, and 4) arson.

**Scoring** - Counting the number of offenses committed after the police investigation report has been classified. (For a discussion of UCR scoring rules and procedures, see the section in this publication entitled "Considerations for Interpretation.")

**Structure** - For UCR purposes, generally any enclosed area intended for permanent use or occupation. A "structure" is considered to include the following, but not limited to: a dwelling house, apartment, out buildings, public buildings, offices, factories, etc.

**Summary Reporting** - A method of collecting crime data adopted for national reporting purposes in which a limited amount of analytical data associated with an offense or arrest is compiled by central collection agency from summary reports completed by each contributing agency.

**Unfounded Offense** - A record of complaint which is found to be false or baseless after police investigation. The number of these complaints received are not included in the actual number of offenses reported used in the tabulation of the crime index, rate, etc.

**Violent Crime** - Any one or the sum total of the following offenses: 1) murder, 2) forcible rape, 3) robbery, and 4) aggravated assault.

**UCR** - Uniform Crime Reporting.
